Highlights

Heavy rains and gloomy conditions during the entire tour still didn't stop the determined group to follow their leaders as they presented the 33 endemics along with a rare sighting of the Citrine Wagtail, and the discovery of a new roosting site of the Serendibs Scops Owl. The elusive Whistling Thrush was spotted twice while Sri Lanka Myna came to greet us on our last day at Singharaja. A very rare sighting of a Pygmy Lizard and Round-Snout Pygmy Frog in Horton Plains was a bonus for this tour.

Day 1

Saturday 7th November

The group met at the Airport and boarded the flight to Sri Lanka, for their 10-day endemic bird watching tour.

Day 2

Sunday 8th November

The group arrived at Colombo Airport at 12.40 pm and we left the airport at 1.35pm. En-route to Kithulgala we stopped at a nearby field where we encountered Indian Pond Heron, Wood-Sandpiper, Lesser-whistling Duck, Intermediate Egret, White-throated Kingfisher, Barn Swallow, Black-headed Ibis, Red-wattled Lapwing, Common Myna, White-bellied Drongo, Grey Horned-bill, Sri Lanka Swallow, Sri Lanka Hanging Parrot, Legge's Flower pecker, Pale-billed Flower pecker, Asian Palm Swift, Indian Swiftlet, Red-vented Bulbul, Jungle Crow, Asian Brow-flycatcher and also encountered a Torque Macaque.

We reached Kithulgala at 4.40pm, and were greeted with a hot cup of tea. After tea we immediately went in search of the Sri Lanka Frog-mouth roosting site which Chaminda scouted a few days ahead of the groups arrival and everybody was in luck with clear sightings. The rest of the evening we did more birding around the hotel premises where we encountered Crested Serpent Eagle, Tickell's Blue Fly-catcher, Greenish Warbler and a Palm Squirrel. The distance call of the Brown-wood Owl was also heard as we returned to the hotel.

We came back to the hotel at 6.30 pm and met for the checklist at 7pm. After the briefing for the next day, we had dinner

Day 3

Monday 9th November

We started the day with tea at 5.15am, and headed out at 5.30am for some pre-breakfast birding. After walking for about 3km we crossed a hanging bridge towards a small village. We encountered Sri Lanka Jungle Fowl, Black-capped Bulbul, Yellow-fronted Barbet, Lesser yellow-naped Woodpecker, Black-rumped Flameback Woodpecker, Oriental White-eye, Green Imperial Pigeon, Spot-winged Thrush, Oriental Magpie Robin and Orange-billed Babbler. We returned to the hotel at 8.30am and sat down for breakfast. The rains were getting pretty heavy and Chaminda decided to go ahead and search for the elusive Serendib Scops Owl' roosting site but the bad weather gave us no luck. Later Saman led the group to Mahakandarawo Rainforest where we had to cross a swollen river in dug-out canoes to get to the entrance of the forest.

We encountered Dark-fronted Babbler, Malabar Trogon, Black Eagle and Grey Wagtail among many other birds which we saw the day before. We also saw a wide variety butterfly including Grey Pansy, White Four-ring and Blue Oak Leaf. Kangaroo Lizard, Green Garden Lizard and Giant Millipede were also seen.

After returning to the hotel at we had lunch and had a small break till 4.30pm. The rains had ceased a bit by the time we left for more birding in the Kithulgala village. Chestnut-backed Owlet and Lesser Hill Myna were the new birds we saw for the evening.

We headed back to the hotel at 6.00pm and met up for the checklist at 7pm. After dinner, the group retired to their rooms, for another early start the following day.

Day 4

Tuesday 10th November

We started our day at 5.15 am with tea, and headed out for another pre-breakfast birding session. The target for the pre-breakfast session was the Green-billed Coucal which we managed to see along with Asian Koel, Grey-horned bill and Black Bulbul. We returned to the hotel at 7.30am for breakfast and once again Chaminda went in to the forest to locate the roosting site of the Serendib Scops Owl after handing over the group to Saman as it was the final chance to locate this bird in Kithulgala. At 9.30am Chaminda gave me the good news call to say that he has discovered the Serendib Scops Owls new roosting site so I took the whole group in to the forest after a quick breakfast. The new site was rather difficult to access with the adverse weather affecting the forest but everybody got an eye full of this beautiful bird. We also see White-bellied Sea Eagle, Oriental Honey Buzzard and Sri Lanka Crested Drongo.

We checked out of the hotel at 11.00am and left for Nuwara Eliya. After two days of heavy rain it was a rather welcoming site to see the sun out. En-route we encountered Chestnut-headed Bee-eater and Flying Fox. The scenery changed as the winding roads took us to the next hotel perched up in the mountains. We had lunch at 1.30pm and relaxed until 3.00pm.

Our next birding session was at Bomuruella where we encountered Dull Blue Flycatcher, Sri Lanka White-eye, Yellow-eared Bulbul, Grey-headed Canary Flycatcher, Mountain Hawk Eagle, Great Tit and Bar-winged Flycatcher Shrike. Our next location was Seethaeliya to spot the elusive Whistling Thrush but there was no luck today.

We headed back to the hotel at 6.00pm and met up for the checklist for 7pm. After dinner, we returned to our rooms, as we would be leaving for Horton Plains at 5am.

Day 5

Wednesday 11th November

After tea at 4.15am, we left for Horton Plains. By 6am we reached the entrance and proceeded to an area outside the National Park, to see the Whistling Thrush which eluded us once again as Crimson-back Woodpecker was only spotted by just one member of the group. Inside the park we encounter Common Buzzard, Black-winged Kite, Pied Buschat, Hill Swallow, Sri Lanka Bush Warbler, Scimitar Babbler, Zitting Cisticola, and Common Castrol along with a very rare Pygmy Lizard & a Round-Snout Pygmy Frog sighting, Black-lipped Lizard, several Samba Deer and Purple-faced Leaf Monkey.

We reached the hotel at 1.30pm for lunch, and set out again to Victoria Park at 3.00pm, where we encounter Indian Pitta, Forest Wagtail and Indian Blue Robin. Once again we go back to Seethaeliya and this time we managed to spot the Whistling Thrush.

We came back to the hotel at 5.45pm and, after the checklist, we had dinner and went to bed.

Day 6

Thursday 12th November

We started the day early with a pre-breakfast birding session to Seethaeliya for another look at the Whistling Thrush and after that went to the Bomuruella forest where we encounter Sri Lanka Wood Pigeon.

After breakfast, we checked out of the hotel and proceeded to Embilipitiya, en-route stopping at the Surrey Estate for some birding. We encountered Brown Wood Owl with her chick here. Our next stop was in Ella at 12.15pm for lunch and a little birding from the picturesque garden of the Ella Motel where we encounter Ashy Prinia.

On our way to Embilipitiya we see two Elephants walking through the forest patch (Elephant Corridor) almost camouflaged by the surrounding bushes. Indian Darter, Indian Peafowl, Painted Stork, Woolly-necked Stork and Purple Swamp Hen were also welcome sites. At the hotel entrance we were greeted with the sighting of a Collared Scops Owl.

We did the checklist at 7.00pm, met at the restaurant at 7.30pm for dinner and headed back to our rooms.

Day 7

Friday 13th November

With picnic breakfast we left the Centauria Hotel and proceeded to Udawalawe National Park for a Jeep Safari. Sri Lanka Woodshrike, Brown Fish Owl, Jerdon's Bushlark, Paddyfield Pippit, Indian Roler and Yellow-eyed Babbler were some of the birds encountered during the safari. Water Buffalo, Torque Macaque, Grey Langur, Ruddy Mongoose, Spotted Deer, Soft shelled and hard shelled Terrapin, Mugger Crocodile, Land Monitor, Common Rat Snake and Common Garden Lizard were also encountered.

After lunch on our way to Singharaja we were very lucky to come across the rare migrant Citrine Wagtail.

By 6.15pm we reached Singharaja and were greeted with a hot cup of tea. It was raining heavily in the evening as we sat down to do the checklist which followed with dinner to conclude the day.

Day 8

Saturday 14th November

After breakfast at 5.30 am we left for the Singharaja Rainforest, with a picnic lunch.

On our way to the forest entrance we see Crimson-fronted Barbet and as we proceed further we encounter Whit-faced Starling, Blue Magpie, Ashy-headed Laughing Thrush, Red-faced Malkoha and the elusive Scaly Thrush.

We returned to the hotel 5.00pm and during the checklist we had counted 31 endemics already on the list with just 2 more to go.

After dinner at 8.00 pm we called it a day.

Day 9

Sunday 15th November

After having tea at 4.45am we headed out to the Kethalapatha area amidst heavy rain where we encounter Sri Lanka Spurfowl. During breakfast back in the hotel Chaminda heard the call of the Sri Lanka Myna and quickly gathered the group outside to see it perched on a branch in a nearby tree and birding continued around the Singharaja village with a sighting of a Rufous-bellied Eagle. We came back to the hotel for lunch and checked out at 1.30pm.

We reached our final hotel at 4.40pm and did a little birding in the hotel garden where we see Black Bittern. Dinner was at 8pm after which we retired to our rooms.

Day 10

Monday 16th November

After breakfast, the group checked out in time to reach the airport for their flight.
